

# ROULETTE

HOW TO PLAY

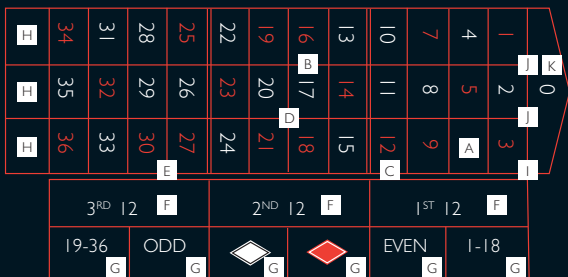

Country Club  
TASMANIA

# AN EXCITING GAME FOR BOTH BEGINNERS AND THE EXPERIENCED PLAYER, WITH A NUMBER OF DIFFERENT WAYS TO BET.

Players may use the '\$' value chips, or to avoid confusion, the colour chips available at each table. Colour chips can only be purchased from the dealer at the table you wish to play and must be exchanged for '\$' chips before you leave, as each table has its own design colour chips.

To play Roulette, simply place your chip(s) on the bet of your choice until the dealer announces 'no more bets'. You may bet on only one number or several if you choose, as long as your bet is at least the table minimum for that betting area. All table minimums are posted on signs at each table.

The diagram below illustrates ways to bet, where to place your bet, and the odds to be paid to winning bets.

## STAKES
